### **Press Release**

#### **Green Party Candidate Meets Student Activists**

Parry Sound-Muskoka Green Party candidate, Glen Hodgson capped off a strong week of election campaigning by attending the Green Party of Ontario AGM held this past weekend at Grandview Resort in Huntsville. Hodgson had the opportunity to address the crowd of Green Party members from across Ontario and then listened to a presentation from a student group from Huntsville High School.

“The students from Huntsville gave an incredible speech that outlined some of the policy statements that they would like to see adopted by the Political Parties,” said Hodgson, “It was certainly gratifying to see that their concerns are very much in line with those of the Green Party.”

The Green Party feels that they are really gaining momentum as the campaign rolls on and their platform message seems to be gaining traction. The Greens are focused on increasing their share of the vote and electing MP’s to Parliament on May 2nd.

“It seems like the youth are really being left out this election campaign and it is very frustrating to them,” said Hodgson. “It really is their world that we are talking about when we make policy and present a vision of how we would run this country if elected.”

The Green Party has historically been the party of choice for youth under twenty four. In the last student vote, the Green Party would have formed the government based on the number of votes cast for them by participating Canadian students.

“I was thrilled to be a part of an event that included youth, took their concerns seriously and gave them a voice. The Green Party will make full commitment to representing the needs of all Canadians and that includes the youth.”
